

Stand out with ASNT's Employer-based Certification Accreditation

Garra Liming¹, Paul Lang²

¹Marketing and Communication, ASNT, USA, ²Certification, ASNT, USA

Secure nondestructive testing (NDT) personnel certification compliance and ensure proper oversight of your employer-based NDT certifications programs with the American Society for Nondestructive Testing's (ASNT's) Employer-Based Certification (EBC) Audit Program. The EBC program provides the NDT industry with a registry program that ensures NDT service providers and inspection agencies meet the minimum compliance with either ASNT Recommended Practice No. SNT-TC-1A or ANSI/ASNT CP-189 through the employer's written practice. The benefits of EBC include: Competitive Advantage — An effective employer-based certification program can be a critical enabler of growth. Recognition — Receive recognition from ASNT—the industry-recognized, trusted source who developed SNT-TC-1A and CP-189. Standardization — Tackle the challenges faced individually by companies through industry-wide standardization and practices. Cost Reduction — Save time and resources and reap potential cost reductions through fewer site visits to review NDT personnel certification. In this presentation, you'll learn: • how the EBC program works, • the benefits of holding accreditation for NDT Personnel Certification, • how to gain a competitive advantage by maintaining an effective employer-based certification program, • the impact of standardizing NDT certification assessments, and • the potential cost reductions associated with EBC accreditation. ABOUT THE AMERICAN SOCIETY FOR NONDESTRUCTIVE TESTING INC. ASNT is the association for nondestructive testing (NDT) professionals committed to making the world a safer place. NDT professionals detect irregularities, flaws, and defects in materials, components, and structures that could compromise the safety, reliability, or functionality of an object or structure. Established in 1941, ASNT supports members with certifications, professional development, industry insights, advocacy, events, publications, and networking opportunities and is focused on fostering the growth of future generations of NDT professionals through the ASNT Foundation. Serving more than 22 000 members and certificate holders worldwide, ASNT is the largest technical society for NDT professionals. ASNT is based in Columbus, Ohio, with offices in Houston, Texas, and Chennai, India.
